

## Cataract Lifestyle Questionnaire

This will serve as a guide for discussing cataract surgery lens options. Please complete and bring to the consultation appointment.

1. Do you prefer to **see clearly for distance without glasses** after cataract surgery?  
Examples of activities requiring distance vision are golfing, driving, concerts, watching television.

YES      NO    (Circle Answer)

2. Do you prefer to **see clearly for mid-range without glasses** after cataract surgery?  
Examples of activities requiring mid-range vision are computer use, menus, cooking, seeing car dashboard.

YES      NO    (Circle Answer)

3. Do you prefer to **see clearly for near range without glasses** after cataract surgery?  
Examples of activities requiring near range vision would be reading a book, using a mobile device, detailed work such as sewing, crafting, hammering a nail.

YES      NO    (Circle Answer)

4. If you must **wear glasses after cataract surgery**, which range would you prefer to wear glasses for?

Distance    Mid-Range    Near    (Circle Answer)

5. Place an "X" on the scale below to best describe your personality type.

**Easy-going**

**Perfectionist**

6. Would you be able to tolerate seeing perfect rings around lights at night **in exchange** for good vision at most distances, most of the time, without glasses?
